## Foreword

In 2003, Government of India (GOI) mandated Pension Fund Regulatory and Development Authority (PFRDA) to develop and regulate the National Pension System (NPS). PFRDA had the mandate of formalizing the architectural framework and the guiding principles of NPS. Though NPS was implemented in 2004, NPS was operationalised from June 2008 after the appointment of intermediaries like Central Recordkeeping Agency (CRA), Pension Fund Managers (PFMs), Trustee Bank (TB), Custodian, etc. under a unique and unified architecture i.e., the unbundled structure wherein every entity was entrusted with a specific responsibility in accordance with their core competencies. This has been done to ensure NPS provides financial security with low cost of administration as well as fund management of pension account.

NPS is applicable to all employees of Central Government service, except the Armed Forces, joining Government service on or after January 1, 2004. Subsequently, majority of the State Governments have also adopted NPS from different dates. NPS is also applicable to Central Autonomous Bodies (CABs), State Autonomous Bodies (SAB) who have adopted NPS. Apart from Government sector, NPS is extended to Corporate and All Citizens of India.

Protean eGov Technologies Ltd. (formerly known as NSDL e-Governance Infrastructure Limited) has been appointed as CRA for NPS. CRA is the fulcrum of the system – a platform for the stakeholders to interface and interact with each other. Protean has developed the business and operational features of the CRA system after consultation with PFRDA and other stakeholders. These include the complete functioning of the system and the processes to be followed by various stakeholders for operationalisation of NPS. Protean CRA has also put in place necessary IT and organizational infrastructure for delivering various CRA services.

Protean CRA has continuously focused on providing user friendly system as well as better and efficient services to the stakeholders of NPS. As the Nodal Offices (PrAO/DTA, PAO/DTO and DDO) of Government Sector are primarily responsible for operationalisation of NPS, Protean CRA has been striving to continuously provide handholding to them in each stage of NPS implementation viz. from registration of Nodal Office, registration of subscribers, contribution processing, account maintenance service to exit from NPS.

As one of such measures, Protean CRA has conceptualised, developed, published and distributed Guide (Handbook) to all the Nodal Offices. NPS has evolved over a period of time and accordingly, processes have been re-engineered, new system functionalities have been developed and certain functionalities have been enhanced. Hence, CRA has prepared an updated guide for the Nodal Offices. This Handbook details the complete functioning of the system and the process and sequences to be followed by the Nodal Offices. This guide covers all the features available in the CRA System and it will assist the Nodal Offices and the Oversight Offices to handle NPS Operations with ease. It will also provide a brief idea of the functioning of the underlying Nodal Offices.

The term Central Government includes the Central Autonomous Bodies similarly the term State Government includes State Autonomous Bodies.

# Chapter 1: Facilities for Principal Accounts Office (PrAO) and Directorate of Treasury and Accounts (DTA) in CRA System

PrAO/DTA is the monitoring authority, which oversees NPS related activities of all the associated Nodal Offices (PAO/DTO/DDO) to ensure compliance. PrAOs/DTAs have access to two systems for accessing necessary functionalities viz; NPSCAN (<https://npscan-cra.com/CRA>) and CRA website (<https://cra-nsdl.com/CRA>). PrAO/DTA can log in to these systems with the User ID and I-PIN (password) provided by CRA. The functionalities available in the two systems are listed below:

## C. Functionalities available under NPSCAN

### 1) Views

Under this menu following options are available:

#### a) Contribution File Status

The details of all the Subscriber Contribution Files (SCFs) uploaded by the associated PAOs/DTOs can be viewed. The status can be checked by using any one of the search criteria like PAO/DTO Registration Number or Date Range (from date & to date).

**Contribution File Status View**

To Date	<input type="text"/> (dd/mm/yyyy)

#### b) Verification of Pending Requests

PrAO/DTA will be able to see all the requests, which are pending for verification at PAO/DTO level. The types of requests are:

- i. One-way Switch (From Tier II to Tier
- ii. Scheme Set-Up (Tier II)W
- iii. Withdrawal Request (Tier I)
- iv. Change in Subscriber Details

**Verification Pending Requests for PrAO**

## 2) Contribution Details

Under this option the PrAO/DTA can view/authorize various requests.

### a) Upload

DTA can upload the contribution file in case of centralized mode of contribution. This option is only available for State Govt. Sector

## b) File Status View

PrAO/DTA can view all the Subscriber Contribution Files (SCFs) uploaded by their underlying PAO/DTO along with the status of the file.

The screenshot shows the 'Contribution File Status View' interface. It features a search criteria section with the following fields: File Reference Number, Batch Id, Transaction Id, PAO/PrAO/POP/POP-SP/CBO/CHO Reg. No., Status (with a dropdown menu showing options: All, Uploaded, Accepted, Rejected, Cancelled, Matched, Matched and Booked, Partially Accepted), From Date, and To Date. The interface includes radio buttons for 'File Status' (selected) and 'Transaction Ids Download'. A red asterisk indicates that at least one search criterion must be entered. The status dropdown is currently open, showing the 'All' option selected.

## c) Request Authorization for Shifted Subscriber

Under this functionality, PrAO/DTA can verify the request initiated by underlying PAO/DTO for processing contribution of Subscribers who were associated with the office in the past but currently shifted to another sector.

The screenshot shows the 'Request Authorization for Shifted Subscribers' interface. It features a search criteria section with the following fields: Request Acknowledgement (No), PRAN, From Date, and To Date. The interface includes a red asterisk indicating that at least one search criterion must be entered. Below the search fields are 'Search' and 'Reset' buttons.

#### d) Request Status View of Shifted Subscriber

Under this functionality, PrAO/DTA can view the request initiated by underlying PAO/DTO for processing contribution of Subscribers who were associated with the office in the past but currently shifted to another sector.

The screenshot shows a web interface titled "Request Status View for Shifted Subscriber". It features a search form with the following fields: "Request Acknowledgement No.", "PRAN", "From Date", and "To Date". Each date field includes a calendar icon and a placeholder "(dd/mm/yyyy)". Below the fields are "Search" and "Reset" buttons. A red message "Please enter any one search criteria" is displayed in the top right corner of the form area.

#### e) Request Authorization for Unequal Contribution

Under this functionality, PrAO/DTA can verify the request initiated by underlying PAO/DTO for processing contribution of Subscribers where there is a difference in employer and employee contribution amount. The PAO/DTO will be able to process such contribution only after the request is verified.

The screenshot shows a web interface titled "Request Authorization for Unequal Contribution". It features a search form with the following fields: "Acknowledgement No.", "Capture Date From", and "Capture Date To". Each date field includes a calendar icon and a placeholder "(dd/mm/yyyy)". Below the fields are "Submit" and "Reset" buttons. A red message "Either the Acknowledgement No or the Date Range to be entered." is displayed at the bottom of the form area.

## f) Request Status View for Unequal Contribution

Under this functionality, PrAO/DTA can view the request initiated by underlying PAO/DTO for processing contribution of Subscribers where there is a difference in employer and employee contribution amount.

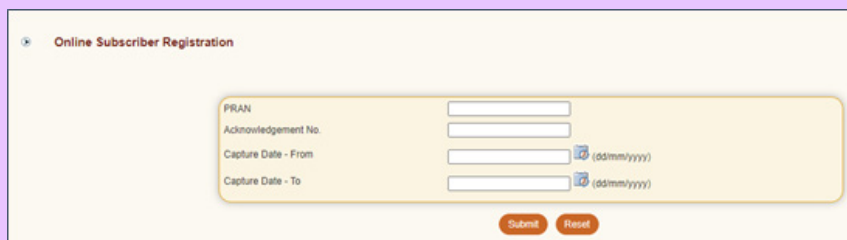

The screenshot shows a web interface titled "Request Status View for Unequal Contribution". It features a search form with the following fields: "Acknowledgement No.", "From Date", and "To Date". Each date field includes a calendar icon and a placeholder "(dd/mm/yyyy)". Below the fields are "Search" and "Reset" buttons. A red error message "Please enter any one search criteria" is displayed at the top right of the form area.

## D. Functionalities available under CRA website ([www.cra-nsdl.com](http://www.cra-nsdl.com)):

CRA has provided various View/Report/Dashboard functionalities to the Oversight Offices on CRA Website ([www.cra-nsdl.com](http://www.cra-nsdl.com)) for controlling and monitoring performance of underlying PAOs/DTOs.

### 1) Online PRAN Generation

Online PRAN Generation can be carried out by the Nodal Offices using either the Front-end mode (screen based) or by Batch-upload mode (uploading of file). The Nodal Office will be required to forward the physical documents to CRA-FC for storage. However, to activate this module, PrAO/DTA needs to send a letter to CRA requesting activation of Online PRAN Generation option. This functionality is currently available for State Government.

The screenshot shows a web interface titled "Online Subscriber Registration". It features a form with the following fields: "PRAN", "Acknowledgement No.", "Capture Date - From", and "Capture Date - To". Each date field includes a calendar icon and a placeholder "(dd/mm/yyyy)". Below the fields are "Submit" and "Reset" buttons.

## 2) Grievance

Through this functionality, the Office can view and monitor the status of grievances raised against the underlying PAO/DTO. In addition to this, the Office can also provide resolution remark to the pending grievances raised by their underlying Subscribers. For further details please refer the Chapter 7: Central Grievance Management System (CGMS) Module of CRA System

## Chapter 2: Error Rectification Module (ERM)

PAO/DTO has to upload Subscriber Contribution File (SCF) in NPSCAN System and remit contribution amount to the Trustee Bank through their Accredited Bank. However, there have been instances wherein the Accredited Bank had transferred excess amount to the Trustee Bank. Further, there have been instances wherein the PAOs/DTOs may have committed errors in preparation/ uploading the SCFs, excess credit to a PRAN, contribution processed in PRAN 1 instead of PRAN 2, etc. To rectify these errors, PAO/DTO can initiate rectification request through the Error Rectification Module (ERM). These requests need to be authorized by the PrAO/DTA.

As per PFRDA directive, availability of correct Nodal Office Bank details in CRA system is mandatory, prior to any request for “Error Rectification”, pertaining to “Excess Transfer to PRAN” and “Non-NPS withdrawal”.

The Nodal Office (PAOs/CDDOs) can initiate request for updating office bank details and upload supporting documents using CRA online system. This bank detail update needs to be authorized by PrAO. An ERM request can be executed only after a gestation period of 30 calendar days from the day of bank details update.

The official carrying out the verification of ERM request shall ensure that the bank details displayed in CRA at the time of ERM processing are matching with the designated bank account authorized to receive the credit.

### **The list/request types is given below:**

c) Excess amount transferred to a PRAN

PAO/DTO initiates this request in case excess amount is processed in associated PRAN. Once PrAO/DTA checks and authorizes this request, units are redeemed and the funds are transferred to the Nodal Office Bank account (provided at the time of request).

## **Contribution of PRAN 1 uploaded in PRAN 2**

**YouTube Link :** <https://www.youtube.com/watch?v=O5zxjzGS3rU>

### **QR Code**

## **d) Redemption of Non NPS Contribution**

PAO/DTO initiates this request in case PRAN is generated and contribution is processed for a Subscriber who is not mandatorily covered under NPS. Once PrAO/DTA checks and authorizes this request, units are redeemed and the funds are transferred to the Nodal Office Bank account (provided at the time of request).

**YouTube Link:** <https://www.youtube.com/watch?v=OMISOQciba8>

### **QR Code**

### **Points to Remember:**

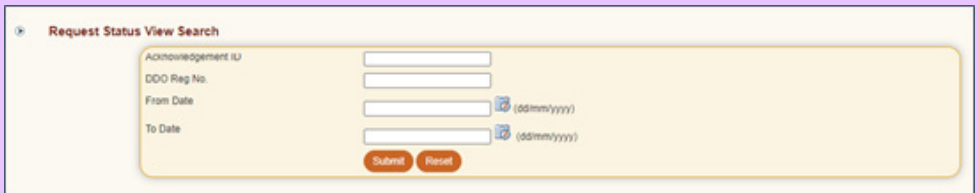

1. In case a request is rejected by the PrAO/DTA, 'Remark' is mandatory.
2. For rejected request, PAO/DTO needs to initiate a fresh request.
3. In case of centralised mode of operation PRAO/DTA bank details should be registered in CRA system for processing Excess Transfer to PRAN and Non-NPS Subscriber withdrawal.

## Chapter 3: DDO Shifting

### a) Authorize DDO Shifting Request

PAO/DTO can initiate request for shifting a DDO between underlying PAOs/DTOs along with all the Subscribers associated to that DDO. Such request needs to be authorized by the associated PrAO/ DTA. Once the request is authorized, the mapping is changed at the end of the day. The shifting will not have any impact on the pending Subscriber Contribution File (SCF) for any of the underlying PRANs. These records would get Matched & Booked even after the DDO shifting.

### b) PrAO/DTA can view the status of all DDO shifting requests initiated by the associated PAO/DTO.

The screenshot shows a web interface titled "Request Status View Search". It contains a search form with the following fields and controls:

- Acknowledgement ID:
- DDO Reg No.:
- From Date:  (dd/mm/yyyy)
- To Date:  (dd/mm/yyyy)
- Buttons:

### Points to Remember:

It is a maker checker activity.

If Checker activity is not completed then the DDO mapping shall remain with existing Office.

## Chapter 4: Knowledge Centre

Knowledge Center helps a PrAO/DTA to keep themselves as well as the associated Offices updated with all the latest processes and requirements for seamlessly performing NPS related activities. Under this menu, there are two options:

### a) Training Module

Under this option, a PrAO/DTA can request for training for any of its associated PAO/D TO/DDO. Training can be requested for any particular module like contribution, withdrawal, etc. depending on the need of the Nodal Office.

### b) View Circular / SOP

Under this option, a PrAO/DTA can search for any circular /SOPs issued by CRA based on any of the three following criteria:

- i. Date of Issue
- ii. Document No (SOP/Circular No)
- iii. Word from Subject

Various informative videos and podcast about NPS can also be accessed through CRA's YouTube Channel "NPS ki Pathshala". The same can be accessed by scanning following QR Code;

**Video Link :** <https://npscra.nsdl.co.in/video.php>

## Chapter 5: Reports

To assist a PrAO/DTA in monitoring the associated PAO/DTO/DDO, CRA has enabled several reports. A list of reports is given below:

- 1) Exception Report-PAO Performance: This report provides the number of days taken by a PAO/DTO for submitting the Subscriber PRAN generation request to FC. The number of days between the date of joining of the Subscriber and the date of submission of the Subscriber's form by the respective PAO/DTO to the FC is taken into account for this report. The report is available PAO/DTO wise. This report can be downloaded as an Excel file or in PDF format.
- 2) Additional Reports: Following reports are available under this Menu:
  - a) Report / File Downloads: Under this option, PrAO/DTA can check status of requests raised for the parameters like Subscriber contribution comparison, Subscriber Contribution List and Pending Match Contribution Files. In this PrAO/DTA needs to either enter Token No or Date Range and type of Request, to check the File Status. However, the date range selected by PrAO/DTA should not be greater than 7 days.
  - b) Subscriber Contributions Comparison  
Under this option, PrAO/DTA can request for a ".CSV" (comma separated values) file containing the latest two contribution amounts uploaded to the CRA System and the comparison between the two for all the active Subscribers. This report comparison shall help to identify inconsistency if any. In case the report is required for any specific PAO/DTO, the user can enter the corresponding Registration Number and request for the report. However, in case the PrAO/DTA wants a report for all the associated Subscribers, the report can be requested without entering any Registration Number.
  - c) Subscriber Contributions List  
Under this option, PrAO/DTA can request for a ".CSV" (comma separated values) file containing the contribution details for the active Subscribers for a given period (maximum 12 months). In case the report is required for any specific PAO/DTO, the user can enter the corresponding Registration Number and request for the report. However, in case the PrAO/DTA wants a report for all the associated Subscribers, the report can be requested without entering any Registration Number.

d) Pending Match Contribution Files

Under this option, PrAO/DTA can request for a ".CSV" (comma separated values) file containing the details of all the Subscriber Contribution Files (SCFs) pending for Match ing and Booking. In case the report is required for any specific PAO/DTO, the user can enter the corresponding Registration Number and request for the report. However, in case the PrAO/DTA wants a report for all the associated Subscribers, the report can be requested without entering any Registration Number.

For all the above three reports, a unique token number is assigned to each of the requests. If the report is generated at the end of the day, the user can use the token number or do a date search to download the report on the next day from the **"Report Request Status View" under Additional Reports (New)**.

## Chapter 6: Dashboard

It provides all the registration details as well as subscriber contribution details under one hub.

### Executive Summary

This report provides the details of registration and subscriber contribution of all the mapped PAOs/DTOs, DDOs.

- Registration reports includes mapped Treasury office, DDO, IRA complied and non-IRA compliant Subscribers.
- Subscriber Contribution report includes SCF summary; like Number of SCFs uploaded, Cancelled, Matched & Booked along with percentages, Number of Treasury Offices whose SCFs are Pending for Matched and Booked and Treasury Offices whose SCFs are cancelled.

(a) No. of Active Subscribers- indicates the No. of Active Subscribers excluding Subscribers due for Superannuation and Subscribers who have applied for Pre-mature Exit linked to PAO/DTO in that respective month.

(b) No. of Subscribers which are not Active- indicates the no. of Subscribers which are Superannuated, expired or have exited in a particular month. This report only includes the regular records uploaded for the selected month. If difference arises in number of Subscriber Records for which contribution uploaded and Number of Records matched and booked then it indicates that those many records are pending for Matching and Booking. This report changes on a daily basis excluding Columns 'No of Active Subscribers' and 'No. of Subscribers which are not Active'. These figures changes on a monthly basis.

### **C. Exception Reports:**

To support the PrAO/DTA in monitoring and analysing the performance of the underlying Office, CRA has developed certain Exception Reports which highlights the PAO/DTO who are not conforming to the standard norms. A summary of these Exception Reports are provided below:

i. Exception Report for PAO/DTO

The PAOs/DTOs are supposed to upload the monthly contribution file for the Subscribers mapped with them on a regular basis. This report will show the number of PAOs/DTOs (PrAO/DTA wise) which has not uploaded any contribution files in the selected month.

ii. Exception Report for Subscriber Registration

This report provides the list of PAOs/CDDOs/DTOs which have non-IRA compliant Subscribers. In case of Central Government, this report is displayed in two tables – PAO/CDDO wise. The details available are PAO/DTO wise number of active Subscribers mapped with a PAO/ DTO, number of non-IRA compliant Subscribers and percentage of the same. This report is sorted based on the number of non-IRA compliant Subscribers.

iii. Exception Report for Subscriber Contribution File upload

This report provides PAO/DTO wise count of Subscriber Contribution Files uploaded and count of Subscribers' records pending for Matching and Booking till last week. In case of Central Government, Report is displayed in two Tables, PAO-wise and CDDO-wise. In addition, the user will also be able to view no. of SCFs pending for Matching & Booking and percentage of SCFs pending for Matching & Booking till last week. The report is sorted based on the number of SCFs pending at each level.

iv. Exception Report for Monthly Subscriber Contribution Credits: This report provides PAO/DTO wise count of Subscribers for which contribution has been uploaded, no. of records pending for Matching and Booking for a selected month-year. It will also provide PAO/ DTO wise no. of Subscribers mapped, no. of subscribers for whom contributions are uploaded and no. of records pending for Matching & Booking on the last business day of selected month-year. This report only includes Regular records uploaded for the selected month. A sample of report can be seen as follows;

## Chapter 7: Central Grievance Management System (CGMS) Module of CRA System

All Nodal Offices have been provided with a unified platform (Central Grievance Management System–CGMS) by CRA to register their grievances against all interfacing entities. Subscribers can also raise grievance against the associated Nodal Office.

### A. CGMS Features

CGMS has following features:

- A system generated unique token number is given to Entities / Subscribers raising grievance in CGMS.
- Email alert is sent to the concerned Entity about the grievance raised.
- For all such grievances against any entity, the concerned entity has a provision to enter resolution remarks of the grievance in CGMS. The field is highlighted in screenshot below;

The screenshot displays a web form for raising a grievance. The form is divided into several sections. The 'Grievance Description' section is highlighted in yellow. Within this section, the 'Grievance Against Type' field is highlighted in red. The 'Resolution Remarks' field at the bottom of the form is also highlighted in red. d. Entities/Subscribers raising grievance can check the status of grievance at CRA website ([www.cra-nsdl.com](http://www.cra-nsdl.com)) or through the Call Centre by mentioning the Token number. Same can be viewed by Referring Link <https://cra-nsdl.com/CRA/grievanceStatusLim.do>

e. CRA has provided a Dashboard to the Oversight Offices for monitoring of pending grievances. Same is available under the dashboard option as shown in following screenshot;

f. CGMS also has an automatic escalation mechanism for monitoring the status of the open grievances.

g. Master download and file upload is provided to the PrAOs/DTAs.

## B. Mode of raising grievances

The modes through which the grievance can be raised are

- Web based interface of CRA System (by using I-PIN)
- Call Centre (by using T-PIN)
- Physical forms submitted to CRA (by using prescribed format - Form G1)

## C. Raising, Resolving and Status view

Nodal Offices and other NPS intermediaries, against whom the grievance has been raised have to enter resolution remarks so that the same gets reflected in CRA System and the entity who has raised grievance can view the same online.

PAO/DTO can provide resolution remarks for the grievances raised against it by the associated Subscribers in CGMS module. However, the mapped PrAOs/DTAs can monitor the status of the grievances raised against underlying PAOs/DTOs. The Monitoring Offices are required to login to the CRA System ([www.cra-nsdl.com](http://www.cra-nsdl.com)) and select 'Grievance Resolution' in CGMS module. The User is required to provide resolution remarks against the pending grievance and click on 'Submit'. The Nodal Office User can check the status of grievance raised by underlying subscriber in 'Grievance Status View'. The Grievance status can be viewed by entering any of the provided search criteria;

**Grievance Status View**

Token No.

PRAN

OR

From Date   (dd/mm/yyyy)

To Date   (dd/mm/yyyy)

OR

Forwarded From Date   (dd/mm/yyyy)

Forwarded To Date   (dd/mm/yyyy)

OR

Feedback Status

**Note**

- > Either the Token Number or the Date Range to be entered to check the Grievance Status.
- > Entity can be selected with the Date range to filter the search.
- > Difference between From Date and To Date should not be greater than 90 days.
- > The Feedback Status can be selected with the Forwarded Date range to filter the search.
- > The difference between Forwarded From and Forwarded To Date should not be greater than 90 days.

The Nodal Offices, upon logging into CRA System ([www.cra-nsdl.com](http://www.cra-nsdl.com)) will get a pop-up alert on the home page, displaying the count of grievances pending (if any) for more than 30 days. The Offices will have two options i.e., either to resolve the grievances immediately by selecting the option '**Resolve Now**' (which will guide the user to 'grievance resolution' screen) or to select '**Resolve Later**' to continue with regular operations and provide resolutions to the grievances later. The pop-up window will be a reminder to all the Nodal Offices which have any grievance pending for resolution beyond 30 days in Central Grievance Management System (CGMS) module. This pop-up will be displayed on each login till resolution of all such pending grievances.

## Chapter 8: Digital Safety Practice

The function of Nodal Officer in Government Sector with respect to NPS is paramount importance. This vital as it begins with subscriber registration and continues till the authorisation of exit/withdrawal request of the subscriber-employee. Therefore, all Government Officials are advised to adopt the following digital safety practice.

1. User ID and Password or Digital Token for CRA system access are confidential in nature. This must not to be shared with unauthorised person and not to be written anywhere.
2. Nodal Offices need to ensure that user ID and Password is shared with unauthorised person.
3. As a preventive action, Nodal Offices are advised to modify the passwords at frequent interval or in case, there is a change/transfer of official authorised to access CRA system.
4. To maintain absolute confidentiality and integrity of all records while dealing with NPS subscriber related activities.
5. To use minimum 8 characters for Password, with combination of Numbers, Special Characters, Capital alphabet and Small alphabets.
6. All PAO/DTO have been provided by two user ids in CRA system, in the capacity of maker and checker for initiation/ verification /authentication. Hence, the Nodal Official shall ensure that the maker user id and checker user id is used by different person (officials of different hierarchy). This will ensure that no single user is able to unilaterally execute transaction.
7. It is advisable to maintain a “log book” for keeping the record of individual/official who have been authorised for accessing CRA system, any change in allocation of such access to individual/official and the type of transactions undertaken.
8. The user should not retrieve and modify the data/information related to NPS, such as information pertaining to PRAN detail, subscriber profile, contribution and withdrawal/claim etc.

9. Ensure that the antivirus is up-to-date in your computer used for CRA access.
10. Scan all files after download from website or links.
11. Always ensure to update the Web Browser with latest patch.
12. Nodal office to carefully verify and process all financial and nonfinancial transactions including the exit/withdrawal request, change in KYC, Bank details and ERM transactions and ensure that the funds are remitted to bank account, authorised to receive that amount.
13. The Nodal office may carry out to scrutinize whether the digital safety practices as advised by authority are being followed in letter and spirit.
