Background:

eNPS for Government sector is an online mode for PRAN generation in addition to the already existent Online PRAN Generation Module (OPGM).

eNPS for Govt. sector was introduced with a view to reduce the time taken for PRAN generation for Govt. employees after Date of Joining. eNPS process also encourages healthy participation by the employee in the PRAN generation procedure as the capturing of data is done by the subscriber. Thus, this process also reduces the efforts required at level of Nodal office from point of view of Data entry to be done. This process also reduces any data entry level errors as the subscriber themselves capture the details.

This document covers the process for PRAN generation on basis of document available in DigiLocker (Driving License).

DigiLocker is an initiative by the Government of India under the Digital India program. It aims at providing citizens with a secure and convenient platform to store and access digital documents and certificates. DigiLocker allows users to upload, store, and share various official documents and certificates digitally.

1. Steps to initiate PRAN Generation through eNPS by Subscriber

In order to initiate PRAN generation through e-NPS, User needs to visit eNPS website <u>https://enps.nsdl.com/eNPS/NationalPensionSystem.html</u> and select the option "**National Pension System**" as given below in **Figure 1**.

Figure 30

This marks the end of applicant journey for PRAN generation. The application then moves for verification by the nodal office.

2. Steps to Verify PRAN Generation through Nodal Office Maker Login

Nodal office will login into CRA system by accessing <u>https://cra-nsdl.com/CRA/</u>.

User will click on "eNPS Registration" option from 'Authorize Request' menu as shown in Figure 31.

Figure 31

User will be redirected to NPS Trust website for verifying the request.

As shown in **Figure 32**, system shows two options i.e. "Verify/Authorize request" and "View Request Status".

User to select "Verify/Authorize request" and enter the Ack. Id or Date range to check applications awaiting verification.

User may act upon specific Acknowledgement ID by clicking on Accept/Reject link provided against the respective Ack. ID.

This completes the Maker level approval.

In case of rejection the applicant must re-initiate the registration process. Rejected request won't be available for authorization in Checker ID.

3. Steps to authorize PRAN Generation through Nodal Office Checker Login

Nodal office will login into CRA system by accessing <u>https://cra-nsdl.com/CRA/</u>.

User will click on "eNPS Registration" option from 'Authorize Request' menu.

User will be redirected to NPS Trust website for verifying the request.

As shown in **Figure 37**, system shows two options i.e. "Verify/Authorize request" and "View Request Status".

User to select "Verify/Authorize request" and enter the Ack. Id or Date range to check applications awaiting authorization.

User may act upon specific Acknowledgement ID by clicking on Accept/Reject link provided against the respective Ack. ID
